10. You are configuring an Azure Monitor alert. You want to ensure that the alert is triggered only when the error rate is greater than 10% for a period of 5 minutes. Which action group should you select?

- A. 3. Action group
- B. 1. Action group
- C. 2. Action group
- D. 4. Action group

Answer: B

Explanation:

An action group is a collection of notification preferences defined by the user. Azure Monitor and Service Health alerts are configured to use a specific action group when the alert is triggered. Various alerts may use the same action group or different action groups depending on the user's requirements.
