NEW QUESTION: 1

You need to configure opportunity status reasons to meet the requirements for existing customer sales. Which options should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

NEW QUESTION: 2

- A. Option D
- B. Option A

C. Option C

D. Option B

Answer: C,D

Explanation:

B: Explicit Inclusion: it is a managed path under which no further site collection can be created. By default MOSS has a root as an explicit inclusion. N no of inclusion can be created manually. So as per my requirement I have to create site collection directly under abc.com. so first I will use root explicit inclusion to create my first ever site collection `http://abc.com/` . and then I will create an another explicit inclusion `"/Learning"` and then I have a site collection with url as `http://abc.com/learning`.

C: You need Full Control or Manage Hierarchy permissions to create a subsite, by default.

You can create/modify a permission level - which will give you the opportunity to allow contributors for instance, to create subsites.

Note:

*From scenario: All users need permissions to create My Sites sites.

*Managed path is a concept given by Microsoft to create different site collection according to different requirement. It is a path managed by SharePoint which will specify how many site collection can reside in a particular url. SharePoint has two type of managed paths:

Explicit Inclusion

Wildcard Inclusion

Incorrect:

A: Wildcard Inclusion: It is managed path under which n number of site collection can be created. By default MOSS has sites as only wildcard inclusion. N no of inclusion can be created manually

So as per my requirement I have to create 2 site collection under which number of site and

site collection can reside .So with this requirement I will create an wildcard inclusion with

name `/HR` and `/Finance` and the url for that will be

`http://abc.com/HR` and

`http://abc.com/finance` and now I have n no of site collection under `/finance` and `/HR`. ex.

`/HR/dep1 & /HR/dep2`

NEW QUESTION: 3

Which two statements are true regarding the Go to Related Records script step? (Choose two.)

A. If there are no related records, the destination layout will have 0 records in the found set.

B. The script step can specify a layout in another FileMaker 13

file as the destination layout.

C. The script step can display the related records in any of the file's existing windows.

D. The script step has the option to show records related to the current record only or to all the records in the found set.

E. The Go to Related Records script step will not work if the destination table is based on an External Data Source of type ODBC.

Answer: B,D

NEW QUESTION: 4

Which of the following is true regarding the Go to Related Records script step?

A. It can be used to navigate to a record in a related table.

B. It can be used to navigate to a record in a related table.

C. It can be used to navigate to a record in a related table.

D. It can be used to navigate to a record in a related table.

E. It can be used to navigate to a record in a related table.

Answer: C
